

Australian  
Continental  
Equestrian Group Inc.

**Dear Stallion Owner / Agent / Stud Manager**

Please note: **ALL active breeding stallions must have a current DNA profile on file with the ACE Group Inc..** If your stallion has not been DNA tested, please contact the ACE office to arrange a DNA kit to be send to you. Thank you.

To ensure efficient and correct processing and record keeping of all mares served throughout the season, please assist us by ensuring all relevant paperwork is filled in correctly.

Please ensure that all markings, including brands of the mare served / inseminated are filled in completely.

Please remember to sign and date each form.

**Service Certificates:**

- White copy: To be send to the ACE office on positive pregnancy or preferably after the mare has foaled down.
- Pink copy: To be given to the mare owner on positive pregnancy or preferably after the mare has foaled down.
- Green copy: To be retained by the stallion owner / agent / stud within the Service Certificate Book.

**Artificial Insemination (AI):**

For any Artificial Insemination, which is conducted by any other person then yourself (stallion or semen owner), please send an AI form with the semen to the person that will be conducting the insemination.

*The AI form is available online, please visit the ACE Group Inc website via [www.acegroup.com.au](http://www.acegroup.com.au) / [www.acegroupinc.com.au](http://www.acegroupinc.com.au)*

After insemination, please ensure you receive the original AI form from the person who conducted the insemination to be able to issue the service certificate.

The mare owner keeps a copy of the AI Form and received the pink copy of the Service Certificate after the mare has foaled down.

Please send a copy of the AI Form with the white Service Certificate to the ACE office. Many Thanks.
